The Hellobrothers have secured a charter of permanent organization. It is beautifully bound, and will be placed on exhibition at Robinson's drug store.

From a fumigating and disinfecting point of view, at least, the National and State boards of health are a stench in the nostrils of all residents of Memphis.

The Porter ladies completed their organization yesterday afternoon, electing Dr. Tyler as surgeon and Rev. W. E. Boggs as chaplain. They commenced drilling this afternoon.

It has been suggested that the APPEAL and *Advance* be made members of the executive committee of safety, then a quorum would always be present, and the vote on any proposition would not be effected, because the reporters would be on the opposite sides of any question, or else would pair off to go out for a few moments to interview somebody as to the proposition discussed by the governors of North and South Carolina.

In the house was also discovered a lot of the stolen and infected clothing and bedding. The sick woman was taken to the Arnold house and the shanty and contents were set on fire and destroyed. Search is being made in the neighborhood for the infected clothing and bedding which, when discovered, will be destroyed. It is feared, however, that the fever will spread in that neighborhood.

The St. Louis Times-Journal says: "The Chickasaw Guards, the crack Memphis company, whose bright buttons and uniforms played and have with the hearts of the young ladies of Tennessee in the ante-bellum days, will arrive in this city on Saturday next, in the competitive drill at the fair grounds. On their arrival they will be received by the First regiment of Infantry of the National Guards, and the St. Louis Cadets of the First regiment of Police Reserve. The Chickasaw Guards have made a good record in every contest in which they have hitherto engaged, and belong to the 'Chicks,' as they are fondly termed, in the highest ambition of the young Memphis men to be the first of the city."
